Education

BMSITM

Bachelor of Engineering in Information Science and Engineering (2022–2026)

CGPA: 8.40

Vidya Bharathi School, Matriculation (2018–2019)

Percentage: 83.68%

MES SSM PU College, Intermediate (2019–2021)

Percentage: 83.16%

Experience

Full Stack Development Intern – Madhwa Infotech (*SS Inphinite LLP*) Feb 2026 – Apr 2026 · Remote

- Built full stack features using **React 18**, **Vite**, **Tailwind CSS** (frontend) and **Node.js + Express.js** REST APIs (backend).
- Implemented **JWT-based authentication** and middleware architecture to secure API routes and manage user sessions.
- Integrated **Firebase Firestore** for real-time NoSQL data sync and **Cloudinary** for cloud media storage.
- Wired third-party services: **Razorpay** (payments), **Shiprocket** (logistics), **Google Gemini API** (AI), and **PDFKit** (invoices).
- Built real-time communication using **Socket.IO** (WebSocket) and **Agora Video SDK** for live video consultations.
- Designed **PostgreSQL** relational schemas with **Prisma ORM** for type-safe queries and migrations across a **TypeScript** stack.

Projects

Airline Management System: June 2025 – Present | Bengaluru, India

[GitHub](#)

- Developed a Java-based system enabling administrators to perform CRUD operations on flights (scheduling, updating, deleting).
- Implemented flight search, booking, cancellation, and boarding-pass functionality for passengers.
- Designed modular classes (Flight, Passenger, Reservation, etc.) to model core airline components.
- Integrated with a relational database via **JDBC/MySQL** to ensure data persistence.

Text-to-Video Generator: Jan 2024 – Feb 2025 | Bengaluru, India

- Developed a web application using **Next.js 13** that converts text prompts into dynamic AI-generated videos via **Replicate API**.
- Integrated NLP to analyze user prompts and managed video visibility (public/private) using **Supabase**.
- Implemented secure authentication with **Google OAuth via NextAuth** and deployed on Vercel with CI/CD pipelines.

Certifications

Data Analytics Job Simulation : Issued by Deloitte / Forage | Obtained: June 2025

GenAI Powered Data Analytics Job Simulation : Issued by Forage | Obtained: November 2025

Accenture Innovation Challenge : Issued by Accenture Innovation Camp | Obtained: Oct 2024

Skills

- **Programming Languages:** JavaScript, TypeScript, Java, C
- **Frontend:** Next.js, Vite, Tailwind CSS, React Router, HTML, CSS
- **Backend:** Node.js, Express.js, REST APIs, JWT Auth, Socket.IO, WebSocket, Middleware Architecture
- **Databases:** PostgreSQL, Firebase Firestore, MySQL, Prisma ORM, Supabase, JDBC
- **Integrations & Tools:** Razorpay, Shiprocket, Google Gemini API, Agora SDK, Cloudinary, PDFKit, Replicate API
- **Developer Tools:** Git, GitHub, VS Code, Vercel, CI/CD
- **Concepts:** OOPs, DBMS, Data Structures & Algorithms, Relational Schema Design, Problem Solving

Coursework

- Operating Systems, Database Management Systems, Object-Oriented Programming (OOPs) with Java, Computer Networks
